### ***NO FURTHER ACTION, USTs AT BUILDING 22, MC CLELLAN AIR FORCE BASE***

Thank you for the 22 August 2000 submittal of the Underground Tank Closure Report (dated 11 June 1996). Regional Board staff reviewed that report along with the latest RICS document for Operable Unit A. Based on that information we have concluded that no further action is warranted for Tank Site 22. Remediation decisions on the rest of PRL S-14, of which Tank Site 22 is a part, will be made under the CERCLA process.

If you have any questions regarding this matter, please call me at (916) 255-3025.
